# MEDICORE

Kevin Wang, Khalil Manpuri, Amar Sheth

FUNCTION

- Provides a way to search for potential diseases based on symptoms you have

- Allows easy access to nearby doctors who specialize in treating a particular disease

- Allows users to provide as well as see ratings and reviews for doctors that they have visited

CHALLENGES

- Coordinating code with one person not having consistent access to a Mac
- Figuring out how to effectively use Firebase
- Putting together the structure of the app

TARGET AUDIENCE

- New parents who have inexperience with professional care for newborns
- College students who need a quick/easy fix for certain symptoms they may experience
- People moving to a new location seeking the best medical treatment possible.
